PhD candidate in School of Computing, National University of Singapore, Singapore; currently staying in Singapore

Dear Madam/Sir,

The ACM Workshop on Digital Rights Management (DRM) was created ten years ago. This annual event has become the leading scientific forum in the area of DRM. As in the previous years, the workshop is co-located with the ACM-CCS Conference and will be held in Chicago on October 4, 2010 (CCS Conference will be held just after, October 5-8, 2010).

Mr. Jia Xu is preparing a doctoral degree in School of Computing, National University of Singapore. As an expert in the field of DRM, he has been invited to attend and to present his paper at the ACM DRM Workshop.

We would appreciate issuance of the appropriate visa for this person's business trip. If you have any questions, please feel free to contact me via the information provided below.

Sincerely,

Marc Joye, *Technicolor*
